

Sports Premium 2015 - 2017

The government is providing additional funding of £150 million per annum for academic years 2015 - 2016 and 2016 - 2017 to improve provision of physical education (PE) and sport in primary schools. This funding - provided jointly by the Departments for Education, Health and Culture, Media and Sport - will be allocated to primary school headteachers. Each year, schools will receive a lump sum of £8,000, with an additional £5 per pupil 'top up'. The funding is ring-fenced and therefore can only be spent on provision of PE and sport in schools.

Focus on improving learning and teaching of PE at Colley Lane:

Mr J Blount of JSB has worked with us to improve and implement our outdoor PE curriculum together with Windsor High School. Together they offer a wide range of knowledge and experience with school sport and PE and have assisted us to identify our strengths and areas for development and provide us with feedback on how to improve our best practice. We are dedicated to developing innovative sports education, which will help our pupils live a healthy, fun and active lifestyle, and to providing further opportunities for those children who display a specific talent or gift

Our curriculum is progressive and developmental, in order to address the requirements of the new Primary Physical Education 2014 Curriculum

The least active pupils are encouraged to enjoy PE lessons and activities to facilitate their opportunities to develop healthy lifestyles and reach the performance levels of which they are capable

Windsor High School coaches are talented and committed athletes in various sports, are ambitious for themselves and for our pupils, and lead by example.

Use of Sports Premium in 2016/2017 Funding profiled for:

- Hiring a specialist PE instructor / qualified sports coach to work with our children, of all ages, during their indoor PE lessons
- Increasing pupils' participation in competitions.
- Buying resources for PE to enhance the learning and support the teaching of the subject.
- More sporting opportunities for KS1.

- Increasing the participation of girls within the school.
- Introducing new and exciting activities.

PE Impact:

By using Sport Premium money for resources we have been able to provide a wide range of out of school activities and extra-curricular opportunities including:

30 clubs, 24 of which are PE/health related. Further opportunities include; Smoothie Bike Challenge, Change4Life festival, Frank Chapman residential, Dodgeball Festival, Year 5 & 6 playground leader training, Street dance workshop and Children's University learning.

During 2015/16 we took part in 14 inter-school competitions which included 28 teams in total showing an increase from previous years. More children have been involved with over half of KS2 participating in a club or representing the school as part of a team, a huge increase from 2013/14 where participation was 36%. Eleven girls from the school football have recently set up an out of school Halas Hawks team playing every weekend.

PE/games have always had a high profile in the school. At least two hours of curriculum time is allocated to PE/sport. Sports days at both KS1 and KS2 are highlights of the academic year.

With the introduction of the new national curriculum and through attendance of the PE 'teach meet' sessions, the PE curriculum has been adapted to match new curriculum expectations and the local inter-school competition timetable.

Sustainability:

- Monitor attendance of clubs in school and encourage the participation of girls.
- Taster sessions for new clubs to increase general participation.
- Pupil voice questionnaires measuring the interest of children in different areas of the PE curriculum.
- Direct feedback by teachers on the quality of support offered by the specialists.
- The number of children attending and joining sports clubs out of school.
- CPD opportunities for all staff provided by Windsor High School
